

The pages that follow are layout templates for raffle tickets. There are two sizes - small and large. Please keep the following in mind when designing for these sizes:

**Do Not Use Bleeds**

Due to the nature of the substrate, partial or full bleeds are not allowed. Design your tickets conservatively.

**Package Files Properly**

All files associated with your document need to be enclosed upon file-handoff. This includes all fonts, images, artwork and the layout file. Be sure to utilize the “save for service provider” feature in many applications.

**Use Quality Fonts**

True Type fonts with styles applied (bold, italic, bold-italic) can printout inconsistently among different output sources and rips. Use Postscript Type I fonts wherever possible.

**Standard Information**

Be sure to describe who, what, where, when, the time of your event/drawing and the price on your ticket.

**SYMBOL KEY**

-  **Cut Lines**
-  **Score Lines**
-  **Copy/Artwork Area**
